Subject: CRA Guidance external peer review questions - Request for Comments Reminder
Attachments: CRA External Peer Review Questions.docx; CRA Guidance External Review Draft.docx

HHOC, this is just a reminder to please submit your comments on the draft CRA peer review questions by this Thursday July 10th to Kristen (keteles.kristen@epa.gov) and Lawrence Martin (martin.lawrence@epa.gov).

Thank you,
Greg

Subject: For Review: CRA Guidance external peer review questions

HHOC:

The Cumulative Risk Assessment Technical Panel is forwarding to the HHOC for review and comment the attached peer review questions to be used in guiding external peer review of the draft Guidance on CRA Planning and Problem Formulation. Please review the six questions by Thursday July 10. Provide comments to me (keteles.kristen@epa.gov) and Lawrence Martin (martin.lawrence@epa.gov).

Also attached is a courtesy copy of draft Guidance on CRA Planning and Problem Formulation. The Guidance has been finalized by the Technical Panel, chaired by Wendy Obrien, R8, and cleared through RAF review by a review team chaired by Ed Ohanian. The decision to use a cross-RAF review team to review the Guidance was made because when it was conceived CRA cut across all the RAF oversight committees. Rather than all members of the RAF being drawn into the review, members from each oversight committee were identified to participate on the review team. RAF review of the

Guidance prior to sending it to the STPC for approval of external peer review is complete. No further review of the Guidance is requested at this time.

RAF leadership made the decision to move back to the HHOC for review of the external peer review charge questions. Your review of the draft charge questions for thoroughness and sufficiency is appreciated. Please contact Lawrence with any questions.

Thanks,
Kristen
